Someone brought me to Denmark. My work is not what I agreed to do, before I left home.

I'm forced to work in the streets at night, but I do any work I find. I do cleaning, collecting bottles and forced to do other bad things I don't want to do.

My boss took my papers and passport. Instead, people gave me fake documents.

I feel sick and need to see a doctor. I can't pay for medicine. I don't know what is wrong.

The money I earn I must give to my boss. I'm struggling to pay to live normally.

I asked for asylum in Denmark but was refused. The people I owe money to forced me to stay in Europe and keep paying.

I must be available for any job. I need permission from others to leave the apartment. I'm constantly watched, and controlled by others.

I'm afraid and exploited by people. I face beatings, insults, intimidation and abuse. My family back home is also under constant threat of violence and control.

I owe a lot of money and must pay back bad people for getting to Europe. I have no passport or ID card.

I'm trapped! I swore an oath to be obedient and told to keep secret the truth. I want to feel safe, get good advice and turn my life around in a positive way.
